- If yes, what periods are covered?

## OVERNIGHT IN LOCKEAST BUILDING / COMPOUND

1. If a Vehicle is Unattended all doors, windows and other points of access have been securely shut and locked with any security devices correctly set to operate and the keys removed from the Vehicle.
2. unattached trailers MUST have anti-hitching devices put into operation.
3. Vehicles are parked within a securely locked building of Substantial Construction or within a securely locked compound surrounded by secure wall and/or fences.
4. unattached trailers have had anti-hitching devices put into operation. The onus of proving that the exact requirements of this Clause have been complied with shall rest with You.

“Any goods and equipment are handed to you on the sole understanding that you will indemnify us against all liability in respect of loss, destruction of or damage to the goods and equipment which form the subject of this special contract during the period in which you or any subcontractors employed by you are in possession of the said goods and equipment”.

## Container Locks

Please be advised that **ALL** drivers/vehicles will be required to carry and use the following heavy duty containerlocks.

This is a promise we have made to all of our customers following on from a number of attempted break-in's either at services or at authenticated Truck Stops.

We currently provide an excellent service for all our customers and we pride ourselves on making sure our customer is at ease knowing their business is carried out professionally and securely. It is fundamental that we maintain our reputation and with this continue to expand.

All customers are now asking what security we have in place to ensure their load is safe and secure and we have ensured all customers that our vehicles will find safe parking whilst away from base and that a container lock will be fitted for all loaded containers.

If you currently have a container lock, then please ensure you use it where applicable. If you wish to acquire a container lock, we can supply one for a one off charge of £30. Failure to provide a container lock will limit us to the work you can carry out and if caught not using one, could jeopardise our reputation.

I agree to supply a container lock at all times whilst working for
